### *Editor's words*

The time has come for me to move more into the workforce, so this will be my last issue as editor. A little over three years ago Paul Dennis urged me to take over from him as editor of the *TRUMPET*. I am very glad that I said "yes", because it has been an enjoyable and educational endeavor. Thank you, Paul, for giving me the opportunity and for being such a wise and helpful advisor throughout my tenure.

Articles have been contributed by many players who have made this publication possible. I am grateful to each and every one of you and I hope you will continue to contribute to the publication.

There are many other wonderful people who have made it possible for me to get this job done. Since their names have not been included for the behind-the-scenes labor they have contributed, I want to mention them here. I am especially grateful to my husband, Reece McCain, and my mom, Betty Kenyon, who have always been my most avid supporters. With them, Maxie Cinnamon, Jan Howard, Richard Howard, Genie Kaplan, Vanessa Knapp, John Long, Martha McGhee, and Lyn Shapiro have stepped forward to fold, gather, insert, assemble, label, proofread, seal, count, stack, and/or stuff. They have handled over 650,000 pages in the past 3+ years.

I am pleased to announce that beginning with the November, 2004 issue of the *TRUMPET*, John Christman will take over as Editor. I know he will do a great job and I look forward to reading every word in every issue! I know the members of Unit 240 will be as supportive to him as they have been to me. I thank you all.

*Gloria*

## President's Message

By Nancy Hagerty, Unit 240 President

Greetings from your new president!

I've decided to call this year, the "year of the volunteer." Because of circumstances beyond the control of your board, Unit 240 will not have another Regional until January of 2006. Regionals are our biggest money makers and they really keep us afloat financially. That means an entire two year period with very little income— income we need for general expenses of running a unit. Jim Tully mentioned in the last *Trumpet* some of our concerns. I feel it is really important to reemphasize some of our problems and our temporary solutions.

As a board we voted on an amendment to our by-laws to separate the positions of secretary and treasurer. This amendment was approved at the June annual meeting. We also decreased the salaries of these positions. Another cost saving item was in changing how the *TRUMPET* is distributed. Using e-mail saves a huge amount in mailing and printing expenses.

While we are dealing with cutting measures, many of our expenses have increased. We have been taxed for the National in November more than \$10,000. We have been also assessed for a District-wide publication you will all be receiving. ACBL sponsored events have also increased in price. The cost of directors, their travel, their housing, etc., are becoming more expensive. These are all necessary expenses that keep adding to the costs of running a unit.

So you see, the operating costs are considerable. It will be a struggle to stay in the black and continue to offer the same level of play and competition as we have in the past.

You have elected a great board of people who are fiscally responsible. We will do everything we can not only to keep the play running smoothly but also to increase the enjoyment. This is my personal pledge as your new president.

That is why we remain so very grateful to our many volunteers. A very special thank you to each and everyone of you. This is your year. We need you. We appreciate you.

Nancy

# Bridge & Computers: Bridge Probabilities and Statistics

By John Christman

## Part 4 – Michaels Cue Bid & Unusual Notrump

The first time someone explained the Michaels Cue Bid to me, it was said this way: “When the dealer opens one club or one diamond, and you have 5 hearts and 5 spades, cue bid their suit.” (This isn’t the whole thing, but it was the first time!) I thought to myself “Great! How often does that happen?” This article is an attempt to

answer that question.

Michaels and the Unusual Notrump are almost mirror images of each other. Michaels over a minor shows the top two suits; over a major shows the other major and one of the minors. The unusual notrump (UNT) shows the two lower unbid suits. The UNT is never ambiguous (the two suits are definite) whereas Michaels over a major leaves the minor suit unspecified. From an invocation standpoint, you’d think they’d be equally [im]probable.

To investigate them with my deal generator, I first had to make some simplifying assumptions:

1. Suppose you’re the second bidder.
2. Suppose the opener bids according to a fixed rule set.

I call these simplifying because to otherwise predict his opening bid, or to predict the second or third bidder’s opening is just too much complication. I’m assuming that trends observed under these simplified conditions will persist in more complicated cases.

Given these assumptions, the tabulation conditions go something like this:

1. Get a random deal. Assume North is the dealer.
2. If North has an opening bid of one of a suit then
  - If East has a Michaels bid, add one to the counter for the bid suit.
  - If East has an Unusual Notrump bid, add one to the counter for the bid suit.

We force North to follow these opening bid rules (in this order):

- Bid some number of NT with a balanced hand and more than 14 HCP.
- Bid 2 C with a losing trick count of 3½ or less.
- Bid one of a major with a ‘rule of twenty’ hand and at least 5 cards (spades first unless hearts are longer).
- Bid one of minor with a ‘rule of twenty’ hand (clubs unless diamonds are longer).
- Bid a preempt with fewer points and a suit longer than 5
- Otherwise, pass.

This table presents the bid statistics using these rules after 100 million deals:

### North Opening Bids

2C or nNT	9,818,893	9.82%
1S	8,237,568	8.24%
1H	7,817,026	7.82%
1C	13,318,988	13.32%
1D	10,122,462	10.12%
Preempt	5,541,462	5.54%
Pass	45,143,601	45.14%

Only the one-of-a-suit bids (shaded above) provide opportunities for Michaels or UNT. For each suit, there is a specific requirement to bid either convention. For instance, to bid Michaels after a 1S opening, you must have 5 hearts and a 5-card minor. After a 1C opener, you must have 5-5 in the majors. Each opening suit has a different probability. The table below shows counts of these overcalls (same 100 million deals). Note that all percentages are with respect to the entire deal set, except those in the shaded boxes, which are percentages of that conventional bid.

RHO Opening Bid		Michaels Cue-Bid					Unusual Notrump

Frequency - 1 in		143		179	844	4,431	166		207	985	5,270

Some bridge authors recommend a ‘min-maxi’ use of these two bids. This means that with an intermediate hand (13 to 16 HCP in *Modern Bridge Conventions*), we overcall normally instead of using either convention. The shaded area of the table above shows the percentage of hands that fall into these three ranges. Note that this prevents the use of these conventions in about 1/6 of deals where they would otherwise apply. The frequency line in the table above is the simplest answer to the question with which I started this column:

When your RHO is the dealer, you will be able to bid:

Michaels Cue Bid 1 in 143 deals

Unusual Notrump 1 in 166 deals

Mini-Maxi (13-16 HCP out):

Michaels Cue Bid 1 in 172 deals\*  
 \*(559,358 + 22,587=581,945 100,000,000/581,945=172)

Unusual Notrump 1 in 199 deals\*\*  
 \*\*(482,666+18,975=501,641 100,000,000/501,641=199)

West opened the spade King. Counting the four aces in top tricks, John played to score 6 trump tricks, two in the dummy and four in his hand. He realized he would need to find the opponents clubs breaking 3-3 and to time the play so as to take advantage of the favorable lie. Winning the Ace of spades, he played a heart to the Ace and ruffed a heart in hand. Next came a diamond to the Ace and a diamond ruff. Now, Ace of clubs and a club ruff was followed by another diamond ruff. A third round of clubs was trumped on the table and finally, a heart ruff in hand with his last trump. At this stage he had scored four red suit ruffs in hand, two club ruffs in the dummy, and four aces. The defenders were left in possession of the field, West down to high trumps.

Observe that attempting to ruff clubs prematurely results in defeat because of the table entries needed to score the trump pieces in hand. Playing to establish the clubs also fails because of the 4-1 trump break. Declarer could secure his contract so long as clubs were 3-3, diamonds no worse than 3-5, and hearts no worse than 3-4.

Charlie was favored with the opening lead of the King of clubs.

He saw that he could play the hand for ten winners so long as he suffered no overruff and trump return. He ruffed the club on the table and threw a diamond on the Ace of spades. Needing spades to stand up for only one more round, he trumped a spade with the three of hearts. He followed with a second club ruff and was now home. Do you see it?

Charley now scored a spade ruff with the Queen of hearts, a club ruff with the Ace of hearts, and a spade ruff with the King of hearts. It was now safe to ruff a club with the 8 of hearts since an overruff could no longer hurt him. So long as he tallied 3 club ruffs on the table and 6 hearts in his hand, or 4 club ruffs on the table and 5 in his hand, [together with the Ace of Spades] his line guaranteed only 3 losers, two diamonds and the jack of trump. Note that he was quite willing to lose to the Jack of hearts – but only at a time when an overruff and trump return would not impair the contract.

Both John and Charlie displayed instances of fine technique and timing.

Observe that both contracts made with substantially less than the normal 26 points thought needed for a major suit game. Such is the power of shape.

## Understanding your rebid after opener jump shifts is easy

It took years for my wife and me to understand one of the easiest things in bidding. After opener's jump shift we had bid unmakeable slams or we played in 3NT without a stopper in the unbid suit. Sure, we ended up in the right contract after a jump shift on the *majority* of the hands, but we also gave ourselves zeros some of the time. We knew that one zero erases two tops. We kept reading and asking questions because we were determined to understand this subject. Boy did we feel dumb after Max Hardy had the patience to show us how easy it was to understand responder's rebids.

How did he help us? First he explained that the language of bridge is more restrictive than most foreign languages. When you skip a level of bidding you lose flexibility and have to give up things like the "Principle of fast arrival" (which occurs only for major suit contracts and shows you have no extra values). In exchange for losing this level, we know we are forced to game since opener has at least 19 HCPs.

### Responder's job is to

- 1.) find a fit or explore for NT and
- 2.) show opener how strong his hand is.

Next he explained the answer that solved our problem. "You know what you would bid if the auction went

1H	P	1S	P	
2C	P	?		or
1C	P	1H	P	
1S	P	?	"	

When partner jump shifts make believe partner didn't; and decide the bid you would have made if he hadn't jump shifted. Now all you have to do is make that bid one level higher.

For example, after

1H	P	1S	P
2C	P	?	

if you would have bid 2H, then - after

1H	P	1S	P
3C	P	?	

you now have to bid 3H or if you would have bid 3H (a jump showing about 10-11 HCPs) you must now bid 4H.

How do you solve the problem of bidding 3NT without a stopper in the unbid suit? It's easy. If you have the stopper, bid NT. If you don't, bid the unbid suit. Since, after opener jump shifts, all bids are forcing to game, you are telling your partner to picture a hand that does not have a stopper in the unbid suit nor adequate support for the major.

There are only two more things you need to know to master jump shifts. If partner jump shifts into a major, you need 4 card support to raise the major, since partner probably has a 4-card major. If partner jump shifts into a minor you need 5-card support to raise because partner can jump shift into a short minor suit.

Finally, to make us feel better he said, "Everyone has trouble learning the language of bridge. Just remember there is an answer if you look for it". Max Hardy was a wonderful man as well as a great teacher.

Last issue's column on increasing the number of people who play at our clubs by using a type of "Smile and be polite" program received strong positive feedback. I even met a club owner who uses her concept of enforcing ACBL's zero tolerance policy to market and build her club.

## STATEMENT ON CONVENTIONS

taken from "Active Ethics" (ACBL)

Part of the "right" to use a convention is the responsibility of deciding when it applies in probable auctions. The opponents may be entitled to redress if you did not originally have a clear understanding with your partner of when and how to use a convention you are playing.

For example, a partnership that chooses to play Brozel is expected to have discussed at least the following:

1. Does it apply over strong notrumps?
2. Does it apply over weak notrumps?
3. Does it apply in the direct seat?
4. Does it apply in the balancing chair?
5. Does it apply when used by a passed hand?

We all occasionally encounter situations where we are not sure

what partner's bidding means. **There exists an added responsibility if that uncertainty arises from a convention you and your partner have agreed to play.** In these situations, you should tell your opponents all you know. (Sometimes, the director will even ask your partner to step away from the table so you can talk openly with the opponents.)

The object is to bring your opponents back to even terms — to remove any possible disadvantage accruing to them from your failure to have a complete conventional understanding.

## Vero Beach Bridge Club

Congratulations to our newest Life Master **Toril Pearson** who earned her gold card at the regional in Coral Springs.

The club is investigating expansion into the unfinished portion of our building. With more than 500 students taking classes in each of the last two years, the club needs more classroom and playing space.

The Vero Beach Bridge Club will start a social bridge program on Thursday nights in the Fall under the guidance of **Jack Norris**. With this program, the club hopes to encourage more players to take advantage of our club facilities.

Even though it is the "off" season, the VBBC had 810 tables in play during the month of June. Our membership is well over 700 now and on its way to 800!

The club has recently adopted the Homeless Assistance Center in Vero Beach as its official local charity. Donations of clothing and food will be an ongoing project of the club. The homeless shelter can house 50-60 individuals or 15 families.

Congratulations to **Sally Schultz** and **Mariangela Risso**, who had a 71.15% game on April 29, 2004 at VBBC!

### 7NT two games in a row!

How often can a player or his partner boast the bidding and making of 7NT two games in a row? That very thing happened to two of our players in June. Both players did it on the same days in the same sections but with different partners each time.

**Phyllis Carlson**, playing with **Rita Donovan** on Wednesday, June 16 and playing with **Steve Liapis** on Thursday night June 17, scored 1520 each time for the successful bid.

**Mariangela Risso**, playing with **Melody Gabriel** on June 16 and **Lyn Giuffrida**

# Trouble with Doubles

By Martha McGhee

Looking through *The Official Encyclopedia of Bridge* and Amarya Kearsse's *Bridge Conventions Complete*, I found dozens of types of doubles.

Interestingly enough, the Take-Out Double is considered the very first convention! It is a convention since, by agreement, it has a meaning other than the desire to penalize the bidder in the suit he has bid.

Other doubles listed include, Cooperative, Fishbein, Fisher, Gamble, Gates Adjunct, Incredible, Lead Directing, Lightner, Maximal, Balancing, Slam, Positive slam, Optional, Negative, Positive, Renegative, Responsive, Rosenkrantz, Support, OSTOT, STAIID, Parking Lot, Thrump, Action, Snapdragon, Kock-Werner Redouble, Striped-Tailed Ape, Extended Responsive, etc.

When filling out a convention card with a new partner, doubles are very important. How high does the Negative Double apply? How do we use Responsive Doubles? What is a double if partner has overcalled?

If you haven't discussed your doubles, how do you expect your partner to guess correctly when you pull out that red card with the "X" on it?

In fact, as I move from table to table, I often find either no convention cards, blank convention cards, or incomplete convention cards. I also find cards on the table from the 1979 version. (In case you aren't aware, these are outdated and VERY different from today's version.)

The ACBL policy is that each player have a completed convention card that is identical to partner's card and that both cards be accessible to the opponents during bidding and play.

(That digression was due to the fact that I get irritated when players feel the rules do not apply to them!)

Each player is responsible for alerting promptly and explaining correctly any partnership agreements.

Failure to alert - or not knowing what partner's bid means - is somewhat acceptable from a player with less than 20 masterpoints. It is not at all acceptable from Life Masters!

Opener bids 1H, overcaller bids 2C, responder bids 2D, and advancer doubles as shown:

1H      2C      2D      X

Answers I have received when I inquire about the double include:

Negative  
Responsive  
Support  
I don't know

And they are partners??

Attention bridge players: fill in your convention cards. Discuss your doubles! If you can't remember to alert, don't play alertable bids! If you don't know the doubles you play, look them up in a reference book!

The latest book on this topic is *Double! New Meanings for an Old Bid* by Mike Lawrence. I highly recommend it.

## Convention Card Regulations

Here are the ACBL's specific convention card regulations:

1. Both members of a partnership must use the same system. They must use identical methods. (During a session of play, a system may not be varied, except with permission from the Tournament Director. The Director might allow a pair to change a convention but almost never their basic system.)
2. Partnerships are required to have two convention cards identically and legibly filled out. These cards must be accessible to the opponents throughout the session.
3. All conventions marked in color on the convention card and all non-standard partnership agreements must be either Alerted [red] or Announced [blue].
4. A player is not entitled, during the auction and play periods, to use anything to aid his memory, calculation or technique. However pairs may consult any written defenses to methods permitted by the Mid-Chart or SuperChart.
5. At the beginning of a round or session, a pair may review their opponents' convention card and alter their own defenses against their opponents' conventional calls and preempts. Opponents may not vary their system after being informed of these alterations in defenses.

# Minutes of Board of Directors Meeting

June 12, 2004 11:50 AM

The meeting was called to order at 11:50 AM at the Orlando Metropolitan Bridge Center by Jim Tully, President. Newly elected board members Julie Clark, Dot Davis, and Sandy Erickson were present. Other board members present were Jim Tully, Nancy Hagerty, Harold Phillips, Ralph Stahl. Staff members present were Gloria McCain and Leif Erickson.

New officers for the 2004-2005 year were elected as follows: Nancy Hagerty, President; Sandy Erickson, Vice President, and Jim Tully, temporary Secretary-Treasurer.

The Board voted to dispense with reading of the minutes since they had been published in the *TRUMPET*.

Chris Kindt reported that each club needs to get volunteers to work two days at the NABC Nationals in Orlando in November.

Jim Tully reminded everyone of the annual general meeting at 5:00 PM.

The meeting was adjourned at 1:00 PM.

## Minutes of Annual Meeting

June 12, 2004 5:00 PM

The annual meeting of Unit 240 for the calendar year 2004 was called to order at 5:00 PM at the Orlando Metropolitan Bridge Center on June 12, 2004, by outgoing president Jim Tully.

A quorum was determined to be present. Mr. Tully introduced the new officers and transferred control to new president Nancy Hagerty.

Mrs. Hagerty announced that the agenda would be to award the Mini-McKenney and Ace of Clubs awards for 2003 and to vote on a proposed change to the Unit 240 By-Laws.

Since the outgoing Secretary-Treasurer was not present, a motion was made and seconded to dispense with the reading of the minutes for the previous annual meeting and also to dispense with the Treasurer's Report. The motion passed without dissent.

The winners of the Ace of Clubs and Mini-McKenney awards were announced and certificates and medallions were distributed to the winners who were present.

Former president Jim Tully read the proposed change to the Unit's By-Laws, which would separate the office of Secretary/Treasurer into two separate offices, and noted that the text of the change had also been published in the latest version of the *TRUMPET*. The members present voted unanimously to adopt this amendment.

New business was brought up by J J Krot. He asked the Board to petition the District to ask ACBL to raise the age for juniors. It is now 26 and under. He also asked Board members to ask individual clubs for donations to help him get to New York in July to compete in the Nationals.

Dot Davis made the motion to adjourn; the motion was seconded by Chris Kindt. The motion was passed and the meeting was adjourned at 5:35 PM.

Respectfully submitted,  
Jim Tully  
Acting Secretary/Treasurer—Unit 240

[Editor's Note: These Minutes have been edited. If a complete copy of the original Minutes is desired, please contact the Secretary-Treasurer or President of the Unit.]
